Honouring the past and ongoing work of the LGBTQIA+ population

We would like to honour and recognise the past and ongoing work of the members of the lesbian, gay, bisexual, trans, queer, intersex and asexual (LGBTQIA+) population, and include anyone else who is diverse in sex, gender, or sexual attraction.

We would like to thank LGBTQIA+ people for their contributions to our society, particularly in the areas of health and equality and acknowledge their experiences of prejudice and discrimination. We celebrate their strength, resilience and perseverance.

Kaya Wanju

From the Lord Mayor and the CEO

Perth is, and always will be, a diverse city – it’s one of the things I love most about it. As a Council, we recognise our responsibility to enhance the lives of everyone who lives, works, and visits our city.

It has been a privilege to witness the positive impact of our first LGBTQIA+ Plan, especially through our collaboration with the LGBTQIA+ Advisory Group and our partnership with Pride WA. Welcoming Pride WA into their new headquarters in Northbridge and investing in PrideFest has been crucial in establishing Perth as a vibrant event destination for all.

Our LGBTQIA+ Plan for 2025–2029 reaffirms our commitment to celebrating diversity and ensuring our city remains welcoming and inclusive for everyone.

Basil Zempilas

City of Perth Lord Mayor

I’m pleased to announce the City of Perth’s LGBTQIA+ Plan for 2025 –2029, building on the success of our first plan from 2021.

Over the past three years, we’ve accomplished so much, including winning the 2023 IPAA WA Lotterywest Award for Best Practice in LGBTI Inclusion and being one of the first local governments in Australia to offer Gender Affirmation Leave.

A huge thank you to everyone who provided feedback on our progress thus far which has helped to develop this strategy. I especially want to recognise the City of Perth’s LGBTQIA+ Advisory Group for their dedication and contributions. This bold new Plan reinforces our commitment to enhancing the experiences of our LGBTQIA+ community, and I can’t wait to see what we achieve together!

Michelle Reynolds

City of Perth Chief Executive Officer

Kaya Wanju

From the LGBTQIA+ Advisory Group

In 2020, the LGBTQIA+ Advisory Group, consisting of fifteen members nominated from our community, embarked on a mission to create a plan with the City of Perth to make it a welcoming and supportive place to live, visit, and work for our beautifully diverse community.

Upon the launch of the inaugural plan, the first of its kind within WA local government, our Advisory Group's elected Co-Chairs, Paul-Alain Hunt and David Goncalves, quoted Harvey Milk from his 1978 Hope Speech: "Hope will never be silent."

Now, following the successful implementation of the inaugural LGBTQIA+ Plan, we present our updated vision for the next step in building and growing the LGBTQIA+ community within the City of Perth.

"There will not be a magic day when we wake up and it's now okay to express ourselves publicly. We make that day by doing things publicly until it's simply the way things are." – Tammy Baldwin, first openly gay USA Senator.

Tammy's quote resonates strongly with our mission here in the City of Light. It would be all too easy to celebrate the positive achievements of our inaugural plan and declare that Perth has become an LGBTQIA+ safe and welcoming city of choice. However, we will not rest on our achievements to date. Instead, we will strive to continue to lead

by example, initiative after initiative, to include all members of our diverse community in every activity until it is "simply the way things are" here.

We would like to acknowledge the significant time and effort invested in closing out the inaugural plan's actions and developing this new plan. The numerous meetings, workshops, and community consultations involved a considerable number of volunteer hours and tireless support from the City of Perth Lord Mayor, Council, and administration. Together, we have developed a plan that draws on all our personal experiences and taps into our broad networks to ensure it reflects the right vision and focus our growing city deserves.

On behalf of the LGBTQIA+ Advisory Group, we proudly present the LGBTQIA+ Plan 2025 – 2029.

Steve Wellard & Alyce Schotte,
elected Co-Chairs

City of Perth LGBTQIA+ Advisory Group

Introduction

All people have an equal right to live free from violence, discrimination and stigma. Despite making headway in the last twenty years, the LGBTQIA+ community in Australia still faces a level of discrimination that sees people unable to access the same rights and dignity afforded to the broader community.

Historically, the LGBTQIA+ community has been under-represented, including in government. However, as an estimated 11% of the population identify as having a diverse sexual orientation, sex or gender identity¹, this community represents a significant part of Perth's fabric.

This document, the second City of Perth LGBTQIA+ Plan, has been developed with input from the community across 592 engagements and in close collaboration with the City's LGBTQIA+ Advisory Group. It articulates the outcomes that the LGBTQIA+ population have said they want to retain or see more of in Perth. As such, this plan represents an intentional and enthusiastic journey towards improving the visibility, social inclusion, safety and wellbeing of the LGBTQIA+ community in the city.

TERMINOLOGY

For ease of reading, this plan uses the term *diverse communities*, which is intended to inclusively refer to all spectrums of diversity covered by the City of Perth's equity, diversity and inclusion plans, namely the LGBTQIA+ population, Aboriginal and/or Torres Strait Islander peoples and people with disabilities. This document uses the acronym LGBTQIA+, which refers to lesbian, gay, bisexual, transgender, queer, intersex and asexual, with the + symbol acknowledging the diversity of gender and sexuality not otherwise captured. See page 26 for a full glossary of terms.

Strategic context

The City of Perth is proud to role model the use of advisory groups (people with lived experience) to support the City in its programs and initiatives, championing the mantra ‘nothing for us without us’. The below diagram illustrates the roles that the whole community has in supporting and progressing outcomes for the LGBTQIA+ population.

Noting that state and federal governments are in the process of developing their own LGBTQIA+ plans, the City appreciates their leadership and looks forward to supporting these plans from a local government perspective. We also call on these levels of government to address the areas where our community consultation identified opportunities for improvement in state and federal government services. These areas include addressing the specific needs of the LGBTQIA+ population experiencing homelessness and improving inclusivity in policing, education and the health system.

Illustration of the stakeholders in supporting the LGBTQIA+ population

Kaya from organisational members of the City of Perth LGBTQIA+ Advisory Group

“An inclusive community is a stronger and more vibrant community. When we embrace, include, and celebrate diversity – allowing others to be their true selves, we unlock the full potential of everyone. Our progress as a society comes from recognising that inclusivity not only uplifts individuals but enriches us all, creating a more compassionate, united, and resilient future.”

Michael Felix, Pride WA Chairperson

In 2023, the Commonwealth Government announced it would co-design a 10-year National Action Plan for the Health and Wellbeing of LGBTQIA+ people with an expert advisory group.

In 2024, the WA government announced it will develop a 10-year LGBTQIA+ Inclusion Strategy. It will be informed by a reference group of representatives from the WA LGBTQIA+ community.

In 2020, the City of Perth announced it would develop its first LGBTQIA+ Plan. The City established an ongoing reference group of representatives from the LGBTQIA+ community to co-design the Plan and the support the City in fulfilling the actions.

The current document is the second LGBTQIA+ Plan, guiding the next four years of City actions (with a review at the two-year mark).

“The increased celebration of LGBTQIA+ people and communities within the City of Perth and the City’s enhanced inclusion and proactive allyship are important ways to show the celebration and safety foci for LGBTQIA+ people in Perth. Perth Inner City Youth Service see all these as vitally affirming for LGBTQIA+ communities and for the young people we support. A safer, more friendly and inclusive city benefits everyone.”

Andrew Hall, CEO, Perth Inner City Youth Service

“To be bi+ (bisexual, pansexual, fluid, and multi-gender attracted) is to navigate a paradox. On the one hand, identifying as bi+ is about freedom, the freedom of being attracted to multiple genders. On the other hand, so few bi+ people are actually out, even though we form the largest group under the LGBTQIA+ umbrella. This relative invisibility is why bi+ activists work towards making spaces and events as inclusive as possible. Bi+ Community Perth is working with the City of Perth towards the goal of bi+ inclusion.”

Dr Duc Dau, Bi+ Community Perth

Demisexuality is usually categorised on the asexuality spectrum as it refers to a sexual orientation where the person does not experience sexual attraction from observable characteristics, such as appearance.

This includes norms, behaviours and roles associated with being a woman, man, girl or boy, as well as relationships with each other. As a social construct, gender varies from society to society and can change over time (adapted from World Health Organization).

Gender affirmation/ sex affirmation/ transition

The process a trans or gender diverse person may undertake to live as their defined gender identity. It involves socially, physically and/or legally changing their gender and/or sex. It could include changing names, using different pronouns, presenting differently through clothing or hairstyles etc. But it may also involve physically changing one's body through hormonal therapies, surgeries or cosmetic procedures and/or changing the legal sex markers on official documents like birth certificates, passports and licenses.

A "queer" gender may fall outside of, fall in between, or fluctuate among the binary gender categories of man and woman. People who are genderqueer often experience their gender as fluid, meaning it can shift and change at any given time. Genderqueer can also describe a position of questioning one's gender identity during a particular period or in an ongoing way.

Homophobia/Biphobia

Intersex

An umbrella term for people with physical characteristics that are seen as different from modern medical norms about 'female' and 'male' bodies. There are a variety of different intersex variations and intersex physical characteristics do not reliably determine someone's gender identity or sexual orientation (Q Life).

Lesbian

Someone who self-identifies as a woman and is primarily sexually, emotionally and / or romantically attracted to other people who identify as women. Some women use other terms to describe their attractions.

Non-binary

An umbrella term covering people whose gender identity does not neatly fit as being either 'male' or 'female' (the traditional gender binary). For example, their experience of gender may be a mix of male and female, fluid between male/female, or something else entirely. (See also to pronouns.)

Pansexual

Someone whose sexual, emotional and / or romantic attractions are not defined by gender.

Pronouns

Pronouns are words used to refer to a person. They include gendered pronouns like he/him/his and she/her/hers, or gender-neutral pronouns they/them/theirs. Neopronouns are pronouns that do not exist in the nonbinary person's language such as ze/hir/hirs. It is best to ask a nonbinary or genderqueer individuals how to pronounce or write their pronouns avoid misgendering and to offer your pronouns. Suggests if you are unsure or addressing a group include: friend, folks.

Queer

'Queer' has been used as a slur in the past but has since been reclaimed by a portion of the LGBTQIA+ community. It is an umbrella term encompassing a wide range of identities and is often used by people wishing to indicate that their sex, gender and/or sexuality sits outside of the normal ideas of sex, gender and/or sexuality. However, given how this word has been used historically, it is best to only refer to someone as 'queer' if they have used that term themselves.

Sex characteristics

Sex characteristics are biological and physiological characteristics that includes chromosomal configuration, hormonal profile, reproductive organs and secondary sex characteristics such as breasts, body hair and voice (WA Department of Health, 2019).

Sexuality

An individual's sexual, emotional and/or romantic attraction to another person.

Sexual orientation

An individual's sexual, emotional and/or romantic attraction to another person. Someone can identify with a sexual orientation/sexuality regardless of their sexual or romantic experiences.

Sistergirl

Refer to 'Brotherboy and Sistergirl' listing in the glossary.

Transgender & gender diverse

People whose gender identity is not typically associated with their assigned sex at birth. Transgender people may or may not take steps to live as their affirmed gender through dress, legal status and/ or medical treatment and surgery. Trans people have the same range of sexual identities as anyone else and their sexuality is related to their gender identity, not their sex assigned at birth.

A variety of terms may be used by transgender people to describe themselves including: man, woman, transwoman, transman, trans masculine, trans feminine, trans or non-binary.

Transphobia

Negative beliefs, prejudices and stereotypes about people who are transgender or gender diverse.

+

A symbol that represents everything on the spectrum of sexuality and gender that isn't otherwise captured.
